CHAITANYA MOGAL

chaitanyamogal@gmail.com | +91-8830780496 | https://chaitanyamogal.github.io

Experienced software engineer with over 1+ year of industry experience in full-stack development. Skilled in Java, Spring Boot, microservices, and React JS. Effective collaborator seeking opportunities to apply expertise, learn, and grow in cross-functional teams.

Skills

Languages: Java, Javascript, SQL, HTML+CSS
Libraries: Java Collection, ReactJs, Bootstrap 5
Frameworks: Spring, Spring Boot (REST APIs)
Databases: Relational Database(MySQL)
Web Dev Tools: Git, VS Code, Eclipse, Spring Tool Suite, MySQL Workbench, Postman, Swagger

Work Experience

Vayana Network | Project Engineer   *Jul 22 - Present*

- **Implementation** of a comprehensive customer onboarding service, leveraging Spring Boot, React, and MySQL technologies. This streamlined the onboarding process, reducing customer acquisition time by **30%** and resulting in a **25% increase** in customer satisfaction.
- Developed PDF generation API, which significantly enriched the platform's capabilities. The API enabled users to effortlessly generate PDF documents, reducing document generation time by **40%**, and improving overall platform efficiency.
- Contributed to the development and maintenance of Vayana Trade Exchange (VTX), a digital trade finance exchange connecting Buyers, Sellers, and Financiers.
- Played a pivotal role in optimizing the VTX platform, ensuring a smooth and efficient process for Buyers and Sellers to meet their financial requirements. By introducing innovative financing options and automating key processes, the platform witnessed a **15%** reduction in transaction delays, directly contributing to improved working capital cash flows for businesses.

Projects

Buglog.tech [(View Live)](#)

- Designed and developed BugLog, a web-based bug-tracking system aimed at streamlining the bug management process for software development teams.
- Implemented Java-based backend using Spring Boot Microservices, MySQL for data storage, and React JS for the front end.
- Implemented user authentication, bug reporting, assigning, and tracking features.
- Integrated advanced reporting and analytics capabilities to track performance and improve the development process over time.
- **Tech Stack** - React Js, Spring boot, MySQL (Deployed on DigitalOcean)

PDF Master (npm package) [(View Live)](#)

- Developed PDF Master, an npm package that enables the generation of static and dynamic PDF files in Node.js with an HTML template.
- Integrated data into templates to create dynamic PDFs based on user input or system data. - Provided customization options for headers and footers to personalize PDF files.
- **Tech Stack** - Javascript, NodeJs, Handlebars.js

Education

Pune University   **2018 - 2022**

Bachelor's Degree in Computer Engineering | CGPA: **8.51**

Achieved a CGPA of 8.51, demonstrating strong academic performance and dedication to learning
